

Daniel Bernier

A piano technician, public artist, and former software engineer living in Rhode Island.

As piano technician

They own and operate Beach Glass Pianos. They are the president and librarian for the Rhode Island chapter of the Piano Technician's Guild. They study at The Butler School under Maggie Jusiel, and are mentored by Amy Tiernan and Ruth Van Dine.

As public artist

They partner with Dan Gries to make physical-pixel works that play with how our eyes resolve an image, and are designed to be built with the community.

Selected works:

- HANDS, with Rita Lombardi for Ball & Socket, Cheshire 2025
- Tapestry, New Haven 2019
- Animals, New Haven CWOS 2015
- Marilyn, New Haven Re:Generate 2014

Their portfolio has more of their public and generative art projects.

As software engineer

They've worked for startups, non-profits, and large enterprises. In 2013 they co-founded NewHaven.io, and in 2015, as its board member, they participated in the first national Tech Meetup at the White House.

Selected employment:

- Anchor.dev: cryptography and certificates, 2023-2025
- Daylight: queer banking, 2022-2023
- TED conferences, 2017-2021
- Continuity, pre-acquisition: community banking, 2013-2016
- SeeClickFix, pre-acquisition: municipal accountability and civic engagement 2011-2013
